

# 19 Years of STRUCTURE magazine

In November, STRUCTURE magazine celebrates its 10<sup>th</sup> Anniversary. Reflections on the magazine's past, present and future would not be complete without extending congratulations and thanks to the dedicated men and women who work so tirelessly to provide editorial content of interest to our readers.

As a joint publication of the National Council of Structural Engineers Associations (NCSEA), The Structural Engineering Institute (SEI) of ASCE, and the Council of American Structural Engineers (CASE) of ACEC, STRUCTURE's Editorial Board is comprised of representatives from each of those organizations. Additional Board members represent industry partners.

Please join us in congratulating STRUCTURE's Editorial Board members, past and present, on this 10<sup>th</sup> Anniversary milestone, and in thanking them for their hard work and dedication in creating a world-class publication. ■

## Meet the Editorial Board

NCSEA's Executive Director, **Jeanne Vogelzang**, serves as Executive Editor of STRUCTURE magazine. In addition, Ms. Vogelzang currently serves as the Executive Director of the Structural Engineers Association of Illinois and the Structural Engineering Certification Board. Prior to her work as an Executive Director, she practiced law at Jenner & Block and Baker & McKenzie, as well as financial analysis/corporate strategy at

The Quaker Oats Company. Jeanne has also served as a director/trustee on several nonprofit Boards, including the Boards of Trinity Christian College and the town of Western Springs, IL.

NCSEA's Publication Committee has oversight of STRUCTURE magazine. As such, the Chair of the Publication Committee serves as an ad-hoc member of the Editorial Board. In February 2004, NCSEA appointed **Craig A. Cartwright, S.E.**, Chair of the Publications Committee. Craig chaired the STRUCTURE Editorial Board since 1995. Mr. Cartwright is President and CEO of

C.A. Cartwright Associates, a structural engineering firm in Logan, Utah. Prior to his work with STRUCTURE, Craig published another magazine, *Structural Engineer's Forum*, highlighting the accomplishments of, and issues important to, structural engineers.

**Craig E. Barnes, P.E.**, of CBI Consulting Inc., has over 38 years experience designing, coordinating, and managing structural and civil engineering projects throughout New England. Craig has designed governmental, educational, industrial, and residential projects utilizing all types of construction and materials. Mr. Barnes represents NCSEA on the Editorial Board.

**David Biggs, P.E.**, is with Ryan-Biggs Associates, a structural engineering firm in New York and Pennsylvania. He specializes in the design, evaluation, and restoration of masonry structures, forensic engineering, and the development of new masonry products. David chairs the Prestressed Subcommittee for the MSJC 530 code and was a member of the ASCE-FEMA Building Performance Study team for the World Trade Center Disaster. Mr. Biggs represents SEI on the Editorial Board.

**Dan Falconer** is the Managing Director of Engineering for the American Concrete Institute, located in Farmington Hills, Michigan. Mr. Falconer is an industry representative on the Editorial Board.

**Richard L. Hess, S.E.**, fellow ASCE, is a consulting structural engineer in Southern California, specializing in the structural retrofit of existing buildings and supports for non-building structures and non-structural elements. Richard is past president of the Structural Engineers Association of Southern California. Mr. Hess represents NCSEA on the Editorial Board.

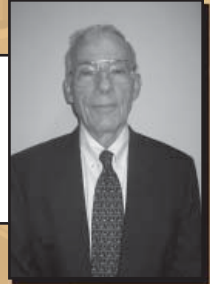

**Brian J. Leshko, P.E.**, is a Professional Associate and the National Bridge Inspection Program Director with HDR Engineering, Inc. in Pittsburgh, PA. Brian is a registered professional engineer in 11 states. Mr. Leshko represents SEI on the Editorial Board.

In 1986, **Bill Liddy** joined AISC Marketing as the Columbus Ohio Regional Engineer, covering four Midwest states. Bill most recently reigned over the Great Plains region, including Chicago. He has also been involved with AISC's Design-Build initiative working with steel fabricators to prepare them for full integration into project teams. Mr. Liddy is an industry representative on the Editorial Board.

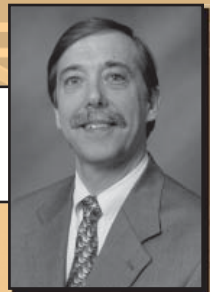

**John A Mercer, Jr., P.E.**, is President and Founder of Mercer Engineering, P.C. Mercer Engineering provides project management, engineering, structural design, and forensic engineering services for governmental, institutional, industrial and residential projects. John has specialized experience in prestressed concrete building design. Mr. Mercer represents CASE on the Editorial Board.

**Evans Mountzouris, P.E.**, is Director of Engineering with The Di Salvo Ericson Group, Structural Engineers Inc. of Ridgefield, CT. Evans' thirty years of experience includes all types of construction. His concentration over the last eight years has been as team leader and project manager for the major institutional facilities designed by TDEG. Mr. Mountzouris represents SEI on the Editorial Board.

**Steven E. Schaefer, P.E.**, is President and Founder of Steve Schaefer Assoc., Inc. of Cincinnati, OH. Under his guidance, the firm grew from a one-person office in 1976 to a staff of over 30. Steve is a frequent speaker, lecturer and author on engineering and business topics. Mr. Schaefer represents CASE on the Editorial Board.

**Greg Schindler, P.E., S.E.**, is an Associate with KPFF Consulting Engineers in Seattle, WA, and is a past president of NCSEA. Greg is also a former President of SEAW. Mr. Schindler represents NCSEA on the Editorial Board.

**Stephen P. Schneider, Ph.D., P.E.**, is an Associate with Kramer Gehlen and Associates, an engineering firm located in the Portland, Oregon metropolitan area. Stephen specializes in the inelastic analysis, behavior and design of structural systems needed for seismic- and blast-resistant structures. Dr. Schneider represents CASE on the Editorial Board.

**John "Buddy" Showalter, P.E.**, serves as Director of Technical Media for the American Wood Council (AWC). Buddy's responsibilities at AWC include development of design tools like the *Allowable Stress Design (ASD) Manual for Engineered Wood Construction* and other technical media. He also serves as the Editorial Board Chairman for *Wood Design Focus*, which is published by the Forest Products Society. Mr. Showalter is an industry representative on the Editorial Board.
